Date of entry 12/19/2024

On 11/19/24, S [REDACTED] P [REDACTED] (S [REDACTED]), date of birth [REDACTED], telephone number [REDACTED], was interviewed at [REDACTED], [REDACTED], by Federal Bureau of Investigation (FBI) Special Agents (SA) [REDACTED] and [REDACTED]. Present for the interview from the United States Attorney's Office was Assistant United States Attorney (AUSA) [REDACTED] and Supervisory Intelligence Specialist (SIS) [REDACTED]. Also present, telephonically, for a portion of the interview was SA [REDACTED] S [REDACTED], after learning the identity of the interviewing personnel, and the nature of the interview, provided the following information:

[Agent note: The interview was conducted in Spanish. SA [REDACTED], AUSA [REDACTED], and SIS [REDACTED] are fluent Spanish speakers, who translated S [REDACTED]'s statements to SA [REDACTED] and [REDACTED].]

RYAN ROUTH (RYAN) previously used a semi-trailer as an office and storage for his business, UNITED ROOFING. The semi-trailer was sitting inside a chain link fence the same way you see it on the property now. RYAN knew how to do engineering and was able to get permits through the city. Husbands Street was used for the business. The smaller Airstream trailer was once lived in by ORAN ROUTH (ORAN). Workers were also housed there. S [REDACTED]'s personal knowledge of the trailer was that it was last used 5-6 years ago.

When asked about going through the box ROUTH left at L [REDACTED] P [REDACTED]'s residence, S [REDACTED] advised he remembered finding the pipe with a round of ammunition in it. He realized it would fire if the spring was pulled back and released. He quickly realized this because S [REDACTED] remembered RYAN previously had charges related to dynamite and explosives. S [REDACTED] was careful to remove the firing mechanism from the pipe because he knew it would fire the round.

[Agent Note: S [REDACTED] was shown two photographs, which were items located in the above mentioned box. One photograph was titled "CEG_0016" which included piping and rounds of ammunition. The second photograph was titled "CEG_0170" which showed one item that contained a spring. Both photographs will be attached to the 1A portion of this captioned case file.]
